**Subject:** Consent Order 14-002-W

Wasn't the extension date deadline for the temporary equalization equipment to be installed and operating by 3/18/14? Your Consent Order 14-002-W said that this should be up and running yesterday, went by today (19<sup>th</sup>) there is nothing up and running but their ugly WWTP #2.

I am asking that you (DHEC & EPA) to hold this company to these Consent Order deadline dates.

The last Consent Orders (I believe there were 2) were not monitored and nothing was completed.

An inspection should be done to make sure everything is completed as the Consent Order demands of them.
